

Fruits Project

1. Choose a topic.
2. Do research on it. Here are some suggested categories:
 - a. *What is it? Describe its properties. Think of your five senses. Use descriptive words
 - b. Where is it from? How is it grown/gathered/raised?
 - c. *What nutrients does it have? How are they helpful for good health?
 - d. How is it usually eaten or served and by which culture(s)?
 - e. Describe its early history (e.g. early cultures and uses).
 - f. Give any other interesting facts.
3. Information is to be written by hand in paragraph form and in your own words.
4. Include about 1 to 2 hand-drawn pictures.
5. Cite your sources properly on the back. You need to use at least three source including a book or encyclopedia.
6. Prepare a 30 second commercial to "sell" your fruit! Be sure to highlight the health benefits!

List of Possible Topics

Apples	Dragon Fruit	Oranges
Apricots	Durian	Peaches
Avocadoes	Grapefruit	Pears
Bananas	Grapes	Pineapples
Blackberries	Guava	Plums
Blueberries	Honeydew	Pomegranates
Breadfruit	Kiwi	Raspberries
Cantaloupe	Lemon	Star fruit
Cherries	Lime	Strawberries
Coconuts	Lychee	Tomatoes
Cranberries	Mangoes	Watermelon
Dates	Figs	Papaya
