Ancient Mesopotamia Project

1. Choose a topic. Come up with possible questions before you start your research and record them below. Think of who, what, when, where, why, and how.

2. Do some research. *Keep a record of your sources for your bibliography!*

3. Look over the information you have found so far. What new questions do you now have? Record them.

4. Do more research. *Keep a record of your sources for your bibliography!*

5. Create your poster.

    a. Try to use your questions as your headings.

    b. Your information should be written by hand in sentence/paragraph form. You may use note form for charts, etc.

    c. Include at least one hand drawn, coloured picture.

    d. Include your bibliography on the back. You must have at least 3 sources. Of those sources, at least 1 must be a book source and 1 must be an online source.

6. Complete the project reflections and evaluations sections.

Due Dates

Poster and Bibliography: Wednesday, December 12th

Presentation: Friday, December 14th

Research Questions

Project Reflections

Reflect back on what you have learned and shared. Here are some *suggested* questions to help guide you:

- What during your project has made a strong impression on you? Why?
- What surprised you?
- Which questions (if any) remained unanswered during the course of your research?

Project Evaluations

Reflect back on what you (and your partner) have done:

- How much work did each of you contribute to the project?
- Which parts did you work on and which parts did your partner work on?
- What was it like working with your partner?
